

# Payroll Integration (Optional)

With Payroll Integration, the submission of payroll files and the remittance of plan contributions is automated rather than a plan representative of the employer needing to submit payroll files through TRPC's employer user site each payroll period.

## 360 Full Integration vs. 180 Partial Integration

For all payroll providers with which TRPC offers integration, payroll data and contributions are automatically submitted by the payroll system to TRPC each payroll period. For payroll providers with 360 Full Integration, employee contribution elections and changes that are made on the TRPC participant user site are automatically updated in the payroll system. For payroll providers with 180 Partial Integration, it is still necessary for the employer's plan representatives to enter employee contribution elections and changes into the payroll system.

## Payroll Integration Group 1 and Payroll Integration Group 2

Payroll Integration pricing depends on whether the payroll provider falls in Group 1 or Group 2. Following is a listing of payroll providers that fall in each group, and the Payroll Integration pricing that applies:

### Group 1 Payroll Providers and Pricing

#### Group 1 - 360 Full Integration

Paychex Flex • ADP Run • ADP Workforce Now

#### Group 1 - 180 Partial Integration

Ultimate Software • Workday • APEX • QuickBooks Online

#### Group 1 Payroll Integration Pricing

<u>Total Employees on Payroll</u>	<u>Cost Per Month *</u>
1 - 25	\$60
26 - 50	\$75
51 - 100	\$90
101 - 499	\$115
500 - 999	\$155
1,000+	\$280

\* Applies per employer or payroll division
